DCMTK - Feature #1053

Add support for --color option to dcmdump and dsrdump on Windows systems

2022-12-19 14:03 - Jörg Riesmeier

Status:	Closed		**Start date:**	2022-12-19
Priority:	Normal		**Due date:**	
Assignee:	Jörg Riesmeier		**% Done:**	100%
Category:	Application		**Estimated time:**	1:00 hour
Target version:	3.6.8			
Module:	dcmdata, dcmsr		**Compiler:**	
Operating System:	Windows			

Description

Both, Microsoft's Terminal and PowerShell support ANSI escape sequences for specifying the text color on a console, so the --color (+C) option of dcmdump and dsrdump should also be enabled on Windows systems.
Documentation of these tools should be updated to explain that the --color option might also be supported on newer Windows systems (depending on the command shell that is used, e.g. CMD.EXE still does not work).
