Description			
A segmentation fault occurred when shutting down the application via the private SOP Class. This issue was introduced with commit c34f4e46e6, which fixed a memory leak.			
Thanks to DCMTK forum user "nbeck" for the original report.			
Closed by commit #ee6690797.			
This issue has been registered as CVE-2022-43272 (https://www.cve.org/CVERecord?id=CVE-2022-43272).
