Description			
<ul style="list-style-type: none">PrivateGroupLengthToEnd/IllegalGroupLengthToEnd/GenericGroupLengthToEnd should be removed from dicom.dic; does exist neither in DICOM nor in ACR/NEMA.<ul style="list-style-type: none">Repeating group elements (5000-50ff,xxxx) and same for 60xx should probably be qualified as (5000-501e,xxxx) (which implicitly only covers the even groups) to only catch the official repeating groups.			
Solved: Attributes removed from dictionary on 2007.11.23.
