

DCMTK - Bug #383

Possible errors in whitespace handling (Win32)

2011-01-26 00:00 - Jörg Riesmeier

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Nikolas Goldhammer	% Done:	100%
Category:	Library	Estimated time:	0:00 hour
Target version:	3.6.2	Compiler:	
Module:	dcmdata		
Operating System:			
Description			
see: http://forum.dcmthk.org/viewtopic.php?t=2813 according to http://msdn.microsoft.com/en-us/library/kwwtf9ch.aspx MSDN-Dokumentation the output of 'sscanf()' should be identical to that of Unix/Posix systems.			

History

#1 - 2013-02-13 17:28 - Jörg Riesmeier

- Category set to Library
- Target version set to 3.6.2

#2 - 2013-04-28 22:58 - Andrew Chiw

- Subject changed from *Möglicher Fehler bzgl. des Whitespace Handlings bei "sscanf()" (Win32)* to *Possible errors in whitespace handling (Win32)*

#3 - 2017-03-01 11:45 - Jan Schlamelcher

- Assignee set to Nikolas Goldhammer

#4 - 2017-04-27 12:23 - Marco Eichelberg

- Status changed from New to Closed
- % Done changed from 0 to 100

The whitespace handling works correctly with current versions of Visual Studio. PGM files with line feeds between number of columns and number of rows are extremely unusual; this does not warrant the implementation of special code for very old Visual Studio versions. Closing entry.
