Description

movescu is the only (?) tool in the dcmnet module that has no TLS support yet:

See http://forum.dcmtk.org/viewtopic.php?f=1&t=1915

History

#1 - 2018-05-14 11:33 - Marco Eichelberg

- Subject changed from movescu has no TLS support yet to Several DCMTK tools have no TLS support yet

The current list of network-related tools in DCMTK without TLS support is:

- dcmsend
- ~~dcmrecv~~
- ~~movescu~~
- ~~getscu~~
- termscu

Furthermore, it would be useful to provide some of the service providers with TLS support in order to be able to test TLS communication for the above mentioned tools:

- ~~dcmqrscp~~
- wlmscpfs
