

DCMTK - Bug #568

Output of getDecompressedColorModel() is not very useful (in case of error)

2013-10-24 09:39 - Jörg Riesmeier

Status:	Closed	Start date:	2013-10-24
Priority:	Normal	Due date:	
Assignee:	Jörg Riesmeier	% Done:	100%

Target version:	3.6.4	Compiler:	
Module:	dcmdata, dcmjpeg, dcmjpls et al.		
Operating System:			
Description			
See: http://forum.dcmktk.org/viewtopic.php?f=1&t=3842			
More details than "E: can't decompress first frame: Tag not found" would be needed, e.g. output to the logger <i>which</i> tag could not be found.			
Also "E: can't decompress first frame: Illegal call, perhaps wrong parameters" is ... when you need a debugger, something is "fishy".
