

DCMTK - Feature #573

Add support for Timezone Offset From UTC (0008,0201)

2013-10-29 10:14 - Jörg Riesmeier

Status:	New	Start date:	2013-10-29
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Library	Estimated time:	0:00 hour
Target version:		Compiler:	
Module:	dcmdata and other?		
Operating System:			
Description			
This attribute is e.g. optionally contained in SOP Common Moule:			
<div>Contains the offset from UTC to the timezone for all DA and TM Attributes present in this SOP Instance, and for all DT Attributes present in this SOP Instance that do not contain an explicitly encoded timezone offset. [...] The local timezone offset is undefined if this Attribute is absent.</div>			
This value should probably be considered (if present) in order to compare dates and times.
