

DCMTK - Bug #586

RUN_TESTS fails on Windows, if BUILD_APPS is set to OFF

2014-02-04 17:28 - Jörg Riesmeier

Status:	Closed	Start date:	2014-02-04

Operating System:			
Description When the target RUN_TESTS is selected in VisualStudio (Windows), the "compilation" fails if the CMake option BUILD_APPS was set to "OFF". On Linux systems, "make test" (which is the counterpart of RUN_TESTS) still seem to work, although BUILD_APPS was also set to "OFF".			
Related issues: Has duplicate DCMTK - Bug #647: RUN_TESTS should not be available in VisualSt... Closed 2015-07-06

Fixed by commit 6497d3036: I could not confirm that unit tests work under Linux if BUILD_APPS was set to "OFF", they also failed in that case on my system. CTest now (after applying the fix) correctly reports that no tests were found if BUILD_APPS was set to "OFF".
