Operating System:				

Description

Currently, storescp issues a warning whenever an incoming DICOM file overwrites an existing file with the same name:

```
DICOM file already exists, overwriting: <filename>
```

getscu and movescu do not warn, but silently overwrite the file. This should be harmonized, i.e. getscu and movescu should report the same warning.

History

#1 - 2015-11-12 14:03 - Marco Eichelberg

- Module changed from dcmdata to dcmnet

#2 - 2015-11-12 14:09 - Marco Eichelberg

- Subject changed from getscu should warn when overwriting an existing file to getscu and movescu should warn when overwriting an existing file

- Description updated

#3 - 2015-11-17 13:27 - Michael Onken

- Status changed from New to Closed

#4 - 2015-11-17 13:27 - Michael Onken

- % Done changed from 0 to 100
