

DCMTK - Bug #689

Unspecified behavior of ofstd_thread test under OS X, OpenBSD and FreeBSD

2016-07-18 11:37 - Jan Schlamelcher

Status:	Closed	Start date:	2016-07-18
Priority:	High	Due date:	
Assignee:	Thorben Hasenpusch	% Done:	100%
Category:		Estimated time:	0:00 hour
Target version:	3.6.1	Compiler:	
Module:	ofstd		
Operating System:	OS X, OpenBSD, FreeBSD		
Description			
The test randomly fails and succeeds under OS X (and perhaps FreeBSD, but this might aswell be a different problem).			
See this forum post for a possible cause and idea how to fix it.			

History

- #1 - 2016-07-20 12:15 - Jan Schlamelcher**
- Subject changed from Unspecified behavior of ofstd_thread test under OS X to Unspecified behavior of ofstd_thread test under OS X, OpenBSD and FreeBSD
 - Status changed from New to Closed
 - % Done changed from 0 to 100
 - Operating System changed from OS X to OS X, OpenBSD, FreeBSD
- Fixed in [commit a5336ef](#). The dashboard shows that this also fixed the problems under OpenBSD and FreeBSD!
