

DCMTK - Feature #691

DUL parser should check for number of allowed items (e.g. 1 User Info item)

Target version:		Compiler:	
Module:	dcmnet		
Operating System:			
Description The DUL parser in "dcmnet/libsrc/dulparse.cc" should check for the number of allowed items in each PDU structure, e.g. the A-ASSOCIATE-RQ PDU allows for one User Information item only (see PS 3.8 Section 9.3.2). It would be nice if dcmnet would at least report a warning to the logger. Thanks to Johannes Passolt <email-address-removed> from Universitätsklinikum Leipzig for the suggestion.
