

DCMTK - Feature #699

DCMTK Macros should start with prefix

2016-10-27 10:07 - Michael Onken

Status:	New	Start date:	2016-10-27
Priority:	Normal	Due date:

Category:	Configuration	Estimated time:	8:00 hours
Target version:		Compiler:	
Module:			
Operating System:			
Description			
DCMTK macros should start with prefix in order to avoid name clashes with other libraries.			
It would make sense to distinguish between macros which are detected during CMake/configure configuration, and others which are set by the user, e.g. DCMTK_ and DCMTKC_.
