

DCMTK - Bug #831

echo SCU false positive

2018-05-03 12:58 - Pedro Fernando Arizpe Gómez

Status:	Closed	Start date:	2018-05-03
Priority:	Immediate	Due date:	2018-05-03
Assignee:	Pedro Fernando Arizpe Gómez	% Done:	100%
Category:	Application	Estimated time:	0:00 hour
Target version:		Compiler:	
Module:	dcmnet		
Operating System:	all		
Description echoSCU returns a false positive (EXITCODE_NO_ERROR) while sending a number of C-ECHO-RQ messages to another DICOM application through an established network connection. The error happens if the condition returned by cecho is not: DUL_PEERREQUESTEDRELEASE nor DUL_PEERABORTEDASSOCIATION The program logs the error correctly(Echo SCU Failed:...) and the association is aborted, however, the program only returns an accurate exit value if the association abort also fails.
