

DCMTK - Conformance #931

Remove redundant mapping of DIMSE Status Codes to human readable description

2020-04-17 09:53 - Jörg Riesmeier

Status:	New	Start date:	2020-04-17
Priority:	Normal	Due date:

Target version:		Compiler:	
Module:	dcmnet and others		
Operating System:			
Description DU_cechoStatusString(), DU_cstoreStatusString() et al. map a given DIMSE Status Code to a human readable description. This mapping is also done by DIMSE_printCEchoStatusString(), DIMSE_printCStoreStatusString() et al., which has just been updated to reflect the current edition of the DICOM standard. It is suggested to remove this redundant mapping and have a single place in the DCMTK that maps DIMSE Status Codes to a human readable version.
